

JAMBHUCHI
EXPORTS

**Delivering India's Finest
Agro Products to the World**

Company Profile

Jambhuchi Export is a Gujarat-based export company committed to delivering India's finest agro products to global markets. Rooted in the rich agricultural heritage of India, we specialize in sourcing, processing, and exporting a diverse range of premium-quality commodities.

We believe that quality is the foundation of trust. Our products are carefully selected from reliable farms and processed under strict hygiene and international quality standards to ensure freshness, flavor, and nutrition in every shipment.

With a strong network of farmers, suppliers, and logistics partners, we are capable of meeting bulk orders efficiently while maintaining consistent quality and timely delivery. Our commitment to integrity, transparency, and excellence has helped us build long-term relationships with clients across the globe.

Pomegranate

Our hand-picked pomegranates are rich in color, juicy arils, and packed with antioxidants. Carefully sourced from the best farms in India.

Benefits

Pomegranates are rich in antioxidants and polyphenols that support heart health and blood circulation. They boost immunity, help lower blood pressure, and promote glowing skin.

Culinary Uses

Used in juices, salads, desserts, and garnishing for various dishes. The arils can be added to yogurts, smoothies, or cocktails for a burst of color and nutrition.

Additional Features

Handpicked, graded, and packed in ventilated cartons to maintain quality during transit. Available in customised packaging sizes suitable for retail or wholesale.

Shelf life of 25–30 days under temperature-controlled conditions.

Banana G9

Our G9 Bananas are grown in the fertile lands of South India, known for their consistent shape, smooth texture, and sweet taste. Each banana is carefully selected and packed to maintain freshness and appeal.

Benefits

Bananas are an excellent source of potassium and energy, promoting heart and muscle health. They help in digestion, reduce acidity, and provide instant natural energy.

Culinary Uses

Ideal for fresh consumption, smoothies, and breakfast bowls. Also used in desserts, bakery products, banana chips, and baby foods.

Additional Features

Hygienically handled, uniform size, and pesticide-free produce. Year-round availability with customized packaging options.

Mango (Kesar & Alphonso)

Our Kesar and Alphonso

Mangoes are known worldwide for their golden color, intoxicating aroma, and luscious sweetness. Handpicked from India's best mango orchards, these varieties are called the "King of Fruits" for a reason.

Benefits

Mangoes are rich in Vitamins A and C, supporting healthy skin and vision. They act as a natural energizer, improving digestion and boosting immunity. Their high antioxidant content helps detoxify the body and promote overall wellness.

Culinary Uses

Perfect for juices, shakes, jams, and ice creams. The pulp is widely used in confectionery, dairy products, and desserts. Mango chunks add flavor and color to salads and tropical dishes.

Additional Features

Packed in ventilated boxes to retain freshness during export.

Green Chilly (G4)

G4 Green Chillies from India are famous for their intense pungency, bright green color, and longer shelf life. Our chillies are hand-harvested and sorted to ensure only premium-grade produce reaches our customers.

Benefits

Rich in Vitamin C and capsaicin, which help boost metabolism and immunity. Regular consumption aids digestion and has antioxidant properties. They also promote better circulation and add zest to meals naturally.

Culinary Uses

Used in curries, sauces, and pickles for flavor and heat. Also ideal for making chilli paste, powders, and seasoning blends. Commonly used in Asian, Mexican, and Mediterranean cuisines.

Additional Features

Uniformly sorted and pre-cooled for freshness. Available in customized packs. Naturally grown with minimal chemical residue.

Groundnut (G20)

The G20 Groundnut variety is famous for its superior oil content, uniform size, and nutty flavor. Harvested from Gujarat's nutrient-rich soil, it's one of India's most demanded export products.

Benefits

Excellent source of protein, vitamins, and healthy fats. Helps reduce bad cholesterol and supports brain function. A great energy booster for daily consumption and industrial use.

Culinary Uses

Used for making peanut butter, snacks, and confectionery. Ideal for oil extraction and roasted peanut production. Adds a crunchy texture to sweet and savory dishes.

Additional Features

Sorted, graded, and packed hygienically for export. Shelf life of up to 8 months under dry storage.

Rice

Our range includes premium long-grain Basmati and Non-Basmati rice varieties known for aroma, length, and cooking quality. Each batch is aged and processed under strict quality controls.

Benefits

Naturally gluten-free, low in fat, and rich in energy-providing carbohydrates. Easy to digest and suitable for all age groups. Aged rice varieties enhance taste, aroma, and texture after cooking.

Culinary Uses

Perfect for biryanis, pulao, fried rice, and daily meals. Widely used in restaurants, hotels, and retail packaging globally. Delivers a fluffy, non-sticky texture that enhances dining experiences.

Additional Features

Available in IR64, Sona Masoori, and Basmati 1121, 1509, 1401 varieties. Low-level moisture ensures long shelf life. Custom packaging options in 5 kg to 50 kg bags.

Spices

We bring you authentic Indian spices that define the flavor of Indian cuisine — freshly sourced, sun-dried, and machine-cleaned to retain their natural aroma and potency.

Benefits

Rich in antioxidants and essential oils that boost immunity and metabolism. Aids digestion, detoxifies the body, and enhances overall wellness. Adds color, aroma, and authentic taste to any cuisine.

Culinary Uses

Used in curries, soups, sauces, pickles, and marinades. Perfect for spice blends, seasonings, and ready-to-cook mixes. Essential in Indian, Asian, and global kitchens for authentic flavor.

Additional Features

Varieties include Cumin, Turmeric, Red Chili, Coriander, Cardamom, Clove, and more. Cleaned, graded, and packaged as per international standards. Offered in whole, crushed, or ground form with private labeling options.

Dehydrated Onion & Garlic

Sourced from premium-quality onions and garlic, these products are dehydrated using advanced techniques to preserve their natural aroma, taste, and nutrients.

Benefits

Retains the same flavor and nutrition as fresh produce.
Convenient for long-term storage without refrigeration.
Saves preparation time and reduces waste.

Culinary Uses

Widely used in instant soups, sauces, curries, and snacks.
Perfect for food processing industries and ready-to-eat meal manufacturing. Easily rehydrates and blends into a variety of dishes.

Additional Features

Available in flakes, powder, minced, and granule forms. Low moisture content below 5% for extended shelf life. Lab-tested for purity and free from artificial additives.

Sunflower Seeds

Our premium-grade Sunflower Seeds are harvested from the finest farms of India, ensuring uniform size, high oil content, and excellent purity.

Benefits

Sunflower seeds are rich in Vitamin E, antioxidants, and healthy unsaturated fats that promote heart health. Regular consumption supports glowing skin, strengthens the immune system, and improves energy levels.

Culinary Uses

Commonly used as a healthy snack or salad topping for an extra crunch. Perfect for baking, granola bars, smoothies, and health mixes. Used in oil extraction industries for producing high-quality, nutritious sunflower oil.

Additional Features

Uniform grain size, high purity, and low moisture content for long shelf life. Machine-cleaned and graded for export quality standards. Available in raw, roasted, and hulled varieties with customizable packaging.

Pulses

Our pulses are sourced from trusted Indian farms known for their superior quality and high nutritional value. Each grain is carefully cleaned, graded, and packed to preserve its natural flavor, color, and aroma.

Benefits

Pulses are an excellent source of plant-based protein, fiber, and essential minerals. Regular consumption promotes heart health, aids digestion, and supports weight management.

Culinary Uses

Perfect for soups, curries, salads, and traditional dishes across global cuisines. Used in the preparation of ready-to-eat foods, flour blends, and snack mixes.

Additional Features

With varieties of **Toor Dal (Arhar)**, **Moong Dal (Green Gram)**, **Masoor Dal (Red Lentil)**, **Chana Dal (Bengal Gram)**, **Urad Dal (Black Gram)**. Machine-cleaned, dust-free, and free from adulteration or chemical residues. Packed in moisture-proof bags to ensure freshness and long shelf life.

Millets

We offer premium-quality Indian Millets, known for their superior nutrition, versatility, and eco-friendly cultivation. Grown in clean, natural environments, our millets are processed with minimal handling to retain maximum nutrients.

Benefits

Millets are rich in dietary fibre, protein, and essential minerals like calcium, iron, and magnesium. They help manage blood sugar levels, promote heart health, and support weight control.

Culinary Uses

Perfect for porridge, salads, flatbreads, and breakfast cereals. Used in baking, baby food, energy bars, and traditional Indian dishes like khichdi or dosa. A healthy replacement for rice or wheat in modern and traditional cuisines.

Additional Features

Naturally cultivated and free from synthetic additives or preservatives. Cleaned, graded, and processed under hygienic conditions to preserve freshness. Available in multiple varieties such as Ragi (Finger Millet) and Bajra (Pearl Millet)

Quality Assurance

For us, quality is not just a process — it's our promise. Every product we export undergoes strict quality checks at every stage, from sourcing and processing to packaging and dispatch. We work closely with certified farmers and approved processing units to maintain consistent quality, freshness, and purity.

Our operations are certified by FSSAI (Food Safety and Standards Authority of India) for food safety compliance, APEDA (Agricultural and Processed Food Products Export Development Authority) for export excellence, and the Spices Board of India for authenticity and purity in our spice products. These certifications reflect our dedication to delivering only the finest, contamination-free, and export-ready agricultural products that meet international standards.

Through continuous monitoring, hygienic handling, and advanced packaging techniques, we ensure that every shipment from Jambhuchi Exports upholds our reputation for trust, taste, and top-quality — from India to the world.
